REFER TO: ST. CLAIR COUNTY - SAUGET/MONSANTO LANDFILL  
PERMIT NO. 1973-2  
SUPPLEMENTAL PERMIT NO. 1981-118

December 21, 1981

Sauget and Company  
2708 Monsanto Avenue  
Sauget, Illinois 62201

Attention: Paul Sauget

Gentlemen:

Supplemental permit is hereby granted to Sauget and Company to modify the final contours at the subject facility all in accordance with the plans prepared by P. H. Weis and Associates, Inc. dated September 18, 1981, and received by the Agency on September 23, 1981. This supplemental permit is further subject to the following special conditions:

1. Site surface drainage, during development, during operation and after the site is closed, shall be such that no adverse effects are encountered by adjacent property owners. Site surface drainage shall be maintained to the north.
2. This Agency reserves the right to require installation of additional monitoring devices, to alter the selection of parameters to be analyzed and to alter monitoring frequencies as may be necessary to fulfill the intent of the Environmental Protection Act.
3. This permit is subject to review and modification by the Agency as deemed necessary to fulfill the intent and purpose of the Environmental Protection Act, and all applicable environmental rules and regulations.
4. Permanent markers shall be installed and maintained at 250 foot intervals over the water line within 90 days of the issuance date of this permit.

001-93

Re: St. Clair County — LPC 163-121-02 —  
Sauget/Monsanto

Gentlemen:

We would like to respond to your letter of September 4, 1981.

We were not aware that the water line existed on the site at the time the original application was submitted, as title search did not show an easement to exist.

Our engineers have surveyed the site and have revised the site plan and cross sections and the water line is shown on said plans. The landfill area will be restricted over the water line in future operations.

As requested by the Illinois-American Water Company, the fill will be held back from said water line on the West side a distance of 100 feet.

In regard to the six inches of compacted earthen cover, we were not aware that the cover was not being provided and will make every effort to correct this matter.

We are in the process of providing adequate final cover over the areas of the site completed, in particular the eastern fill area.

The solid waste is being spread and compacted.

In regard to access to the site, access is restricted with fencing and a gate. Possibly, at the time of the inspection, the gate was in the process of being relocated.
